Undercover Area Projection

Consisting of high-grade components and a simple “one touch” operating system our **Undercover Area Projection Solutions** offer schools bright and powerful projection with a fully automated electric screen and a simple to operate wall connection plate.

Your investment is protected in a sturdy projector cage guarding it from ball sports or possible theft.

Our one touch solution eliminates the requirement for complex remote control units that are often lost, broken or require new batteries.

Operation of the system is intuitive and requires very little staff training.

Site Visit

First we start with an obligation free site visit. One of our friendly and experienced staff will measure the dimensions of your undercover area as well as the existing amount of ambient lighting in order to best recommend the right projector & screen for your area.

Projector & Cage

We use a high quality/high output projector (usually between 5000 to 7000 ansi lumens) as most of your presentations will be made *during the day*.

The result is far better picture quality than using smaller light output projectors.

Screen

Our screens are carefully chosen for their optimum fabric quality. The result... bright, vibrant images and longer lasting results.

Screen size is : 130" (16:10) Image size 2800 x 1750mm or will be determined by available space.

Undercover Area Projection

Transmission

Transmitter for HDMI or VGA/audio

This slick looking panel will allow simple and easy connection from either a dvd or laptop via either VGA or HDMI connections.... Simple!

This can be set to *auto switch* between whichever input is connected.

Cost Saving Green Control Solution

With Auto Shut Down Feature

Ease Of Use:

This wall mounted control system will turn on the projector, lower your screen and automatically select the input source, i.e HDMI or VGA connection.

This system **eliminates the requirement for complex remote control units** that are often lost, broken or require new batteries. Operation of the system is intuitive and requires very little staff training.

Cost Savings:

The system's *auto shut off* feature automatically shuts down the projector after a period of inactivity. This environmentally friendly feature **saves on electricity usage and cost** as well as extending projector lamp life.

The cost and environmental savings don't stop there.

Minimizing lamp life results in **reduced wastage of lamps** as well as projector servicing and repairs.

The inclusion of a **Cost Saving Green Control Solution** is a true investment in your audiovisual system as well as environment.

For every Green Control system sold and installed by 3 Monkeys Audiovisual, we donate funds to Carbon Neutral to plant 10 Trees for Revegetation in WA.

Why choose 3 Monkeys for your school AV

1. Reliable, quality audiovisual equipment that works

- We use top AV brands with proven performance and reliability.
- Many of our AV items are specifically designed for schools, such as our interactive LED and Whiteboard solutions and Triple P.A System.
- Every AV system is assembled and tested in our workshop by qualified technicians before installing in your school in order to minimize any potential AV problems occurring later.
- As school AV specialists, all of our equipment has been thoroughly road tested and proven by our existing client base.
- 3 Monkeys AV is at the forefront of school audiovisual technology, bringing you the latest time saving and breakthrough educational systems.

2. Expert advice on the right equipment and set up

- Our AV specialist team have over 80 years collective experience.
- With over 10,000 AV installations and hire jobs, our consultants and technicians know the best solutions for you school.
- To determine the best products and systems for your school, we conduct a unique 3 Stage "School AV System Analysis and Plan". This involves:
 1. Site meeting to identify your needs
 2. Preparation of a plan (proposal, budget, implementation timeline)
 3. Presentation to explain your various options.

3. Professional installation with a neat and tidy finish

- Our installation technicians are fully employed (not contractors), ensuring quality control on our workmanship and installation.
- With ex teachers on staff, our design and installation takes into account many "teaching requirements" that others are unaware of.
- Our project manager and technicians are conscious of minimizing disruptions during installation periods.
- We believe in leaving your environment as we found it, so our installers carry vacuums, drop sheets, dust pans and brushes.
- Your AV install will have a neat, tidy & clean finish, with all cables hidden or contained within conduits or ducts.

4. Thorough training, personalised service and timely support

- All our school AV installs include comprehensive training to ensure your staff get the full benefit of the equipment and system.
- As specialists in school AV, we have both AV trainers and ex teachers to educate your teachers your teachers in using the audiovisual equipment effectively.
- As schools are our focus, we are committed to providing regular ongoing phone and face to face support.
- Whilst many others sell AV product and move on, 3 Monkeys AV will provide timely support, customer service and troubleshooting for the life of your AV equipment & systems.

5. Reputable, professional school AV specialists

- 3 Monkeys AV is a team of specialists who have worked in all areas of audiovisual in Perth over the last 25 years.
- All our staff are well presented, wear company uniform, mind their language and remember their working environment is your school.
- Our company is fully insured and professionally run. We carry licenses with APRA and ACMA.
- Our specialist staff are all police cleared, hold Working With Children Checks and have completed all relevant safety training.
- You will be looked after by a WA owned and operated team that cares about your school and teachers.

Testimonials

Here's what others had to say about 3 Monkeys AV...

"We have found 3 Monkeys AV to be the ultimate professional team. From initial enquiry, quote, install to training – all staff were friendly, helpful and knowledgeable. Nothing was too much trouble, and we were kept informed at all stages of the install. We cannot get enough of our system!! The quality of the sound system is AMAZING! In fact at our assemblies, we have been inundated with parent feedback about how amazing the children sound. Being able to entertain over 400 students in one room with a movie where they can all see and hear clearly is a dream! We cannot thank Enzo enough. I almost want to order more things just so we can catch up!!! :)

"Lana Viska - Manager Corporate Services – Hampton Park Primary School

3 Monkeys AV are an extremely professional and well organized business. There was no pressure to agree to the proposal and we were left to make our decision without any unrealistic deadlines. Once the decision was made to go ahead with the proposal they liaised with us regularly and installed the equipment in a timely manner. The training session was more than enough and the commitment to ongoing support was genuine. The advice given is based on their many years' experience and knowledge of what will work in the areas that the equipment will be required. The installation team is cordial and easy to work with and are happy to carry out the tasks with a minimum of disruption.

"Mark Powell – Principal – Matthew Gibney Catholic Primary School

All of the staff from 3 Monkeys Audio Visual are very professional. They arrive on time, do the job quickly and efficiently without any fuss. They are very clean and professional. The training was great as well.

We are extremely happy with our triple PA System and undercover area projection system. 3 Monkeys Audio Visual did a wonderful job. We are looking forward to being able to use it to its' full potential.

Jody Marshall (Deputy Principal) - South Ballajura Primary School

"I have found the performance and quality of our Interactive White Board system that we had installed at our school to be very good. The installation team ensured that everything was set up without any hassles and was a smooth transition process. Any time we have issues, we call our AV specialist and they would either solve the issue via telephone or come out on the same day. The whole service process is very efficient as is the follow up system after installation."

Andrew Streeton – North Perth Primary School

"The support service at 3 Monkeys Audio Visual is incredible. Within minutes of the enquiry, our AV specialist will talk us through the problem and the situation is solved, reducing any downtime. We found the entire process of installation to be simple and effective, having the system setup and training completed within the same business day. The overall service is great and it's fantastic to say we've never has any issues when dealing with 3 Monkeys Audio Visual."

Matt Sharp – Quinns Baptist College

"I am extremely appreciative for everything that 3 Monkeys Audio Visual has done for PLC. It's refreshing to see a company who delivers at a high standard and offers great value for their time. There was no beating around the bush and the installation ran so seamlessly. The staff members arrived on time and they went out of their way to answer any question we had, to ensure we were 100% satisfied. We are very happy with their overall performance and the quality of the amplifier."

Geoff Jagoe – Presbyterian Ladies College

"The follow up support with 3 Monkeys is great, the response times to our questions are always quick and effective and the professionalism of the installers was fantastic. The Advice and training we received was terrific, everything was explained sufficiently and the product itself is exactly what we wanted."

Geoff Edwards – Thornlie Christian College

"The Audio visual system that we had installed was absolutely perfect for our needs. The AV specialist trained me on the whole system and kept it really simple, so I understood the program before they left. I find the 3 Monkeys Audio Visual products and service to be fantastic value and it's great to know that the specialist support is not far away. 3 Monkeys AV were the only company that we dealt with who had our best interest in mind, and offered us 3 great options to guarantee we had the best product for us."

Andrew Nightingale – Winthrop Baptist College

Your Next Step...

Our FREE "School AV System Analysis & Plan" (Valued at \$250)

1. Site Inspection & System Analysis

First up, we visit your School and assess your needs and or frustrations with your existing system.

We take digital photographs, measurements and discuss what it is you would like to achieve, review different options available for your budget and then provide our recommendations.

2. AV System Plan

Following your System Analysis we go back to our office and custom design a system for you taking into account specific requirements and other important factors such as functionality, ease of use and aesthetics.

Our design team will use their 80 years of combined industry experience to produce a system schematic illustrating interconnection and layout.

3. Presentation of your AV Plan

So that you have a clear understanding of the proposed AV system, we present you with a detailed "System Plan & Proposal" including system design options, product information and budget options.

Any additions or alterations are considered and if required, we adjust the proposal accordingly.

Our 3 Stage Analysis ensures the system we recommend meets your requirements and budget whilst considering implementation timelines (*not worked out after the sale*) in order to supply you with all the information to make a fully informed decision.

Call 9228 1681 to discuss your school's AV requirements. From this conversation, we can either organise an immediate proposal for simpler requests or book your FREE "School AV System Analysis and Plan".
