DIGITAL SIGNAGE

Digital Signage is a great way to show off your **menu, food specials, any new restaurant updates**. With the Fusion signage system you can have your screen flick between your menu options or choose to schedule different menu options at different times E.g Breakfast menus or dinner menus. You can also schedule your menu specials to only display on your Restaurant digital signage screen on certain days and times.

Digital signage screens can come in a range of sizes and some screens can go in portrait mode as well as landscape. Screens can be installed in a range of areas including wall mounted screens, window displays on a fixed floor pole, mobile trolleys and more.

AUDIO AND PAGING SYSTEMS

3 Monkeys AV specialises in microphone paging and background music systems for restaurants, bars, and cafes. Whether you need a mic to call out orders or make announcements, we offer both wired and wireless solutions tailored to your venue.

Our commercial-grade systems are designed for reliability and ease of use in busy environments. We handle everything—from design and installation to staff training.

We also provide high-quality background music systems that create the perfect atmosphere, with zone control options for areas like beer gardens, dining rooms, or entrances.

ACOUSTIC TREATMENT

When people go out for a meal, a common issue is the volume of a venue and this issue can unfortunately be the deciding factor in whether the customers will return or not.

Acoustic Treatment is a cost effective way to improve the sound environment of your venue. We can custom design and install a solution best suited for your venue. We offer both ceiling cloud panels as well as fabric covered acoustic panels that can be simply mounted on the wall of your venue for high performance sound absorption.

LARGE LED SCREENS

Elevate your venue and enhance the atmosphere with our high-definition LED screens, perfect for pubs, bars, and hospitality spaces. Designed to captivate and engage, these screens offer vibrant, crystal-clear visuals that transform any setting—whether you're showing live sports, hosting themed nights, or creating an unforgettable customer experience.

With outstanding brightness, wide viewing angles, and seamless installation options, our LED screens ensure every guest has the best seat in the house, no matter the time of day or lighting conditions. Let your venue stand out and keep patrons coming back for more.
